Biff Ant™
Insecticide

GENERAL INFORMATION
A residual insecticide for the exterior control of ants around dwellings and footpaths. Suitable for use on all surfaces including lawns, gardens, bark, soil, concrete, asphalt and exterior walls.

ACTIVE INGREDIENTS
Contains 80g/litre Bifenthrin in the form of a suspension concentrate.

Biff Ant™ is a trademark of Key Industries Ltd
Read label before use. Do not handle until all safety precautions have been read and understood.

HAZARD CLASSIFICATIONS: 6.1D, 6.3B, 6.5B, 8.3A, 6.9B, 9.1A, 9.2C, 9.3B, 9.4A

TOXICITY WARNING: THIS SUBSTANCE MAY BE HARMFUL IF SWALLOWED OR INHALED. Repeated minor exposures may have cumulative effects. Do not inhale the vapour or spray mist. Do not eat, drink or smoke while using. Remove protective clothing and wash hands and face immediately after handling this product. Wash contaminated clothing before reuse.

MAY CAUSE ORGAN DAMAGE from repeated oral exposure at high doses.

MAY CAUSE SERIOUS EYE DAMAGE. MAY CAUSE MILD SKIN IRRITATION AND ALLERGIC SKIN REACTION. Avoid contact with eyes and skin. Facial skin contact may cause temporary facial numbness.

ECOTOXICITY:
VERY TOXIC TO AQUATIC ORGANISMS WITH LONG LASTING EFFECTS. DO NOT contaminate any water supply with chemical or empty container. DO NOT spray over or allow to drift over an aquatic environment.

HARMFUL TO THE SOIL ENVIRONMENT.

TOXIC TO TERRESTRIAL VERTEBRATES such as birds and reptiles.

VERY TOXIC TO TERRESTRIAL INVERTEBRATES. Do not spray over bees or apply to plants in flower.

Do not spray over beneficial predators.

HANDLING PRECAUTIONS

STORAGE: Store in the original container tightly closed and in a locked, dry, cool and well ventilated area – well away from ignition sources and foodstuffs. Storage must be generally in accordance with NZ58409.

PERSONAL PROTECTION

When mixing or applying, wear eye protection, face protection, respiratory protection, chemical resistant gloves (e.g. PVC or neoprene), chemical resistant boots, waterproof hat and cotton overalls buttoned to the neck and wrist. When applying this product above 1m height an approved half/full face filter respirator for organic vapours should be worn. When spraying Biff Ant below 1m height use a P2 disposable facemask as minimum respiratory protection.

DISPOSAL

Triple rinse empty container and add rinsate to spray tank. Do not burn empty container that has not been rinsed. Recycle triple rinsed containers through an approved recovery scheme, e.g. Agrecovery. Otherwise, crush or puncture and bury in a suitably approved landfill.

Dispose of this product only by using according to the label, with an approved waste disposal company or treat so that it is no longer hazardous and then dispose of safely in a managed landfill. Do not burn the product.

Dispose of equipment cleaning water onto ground, away from susceptible crops and plants.

SPILLAGE

Exclude all bystanders, prevent material entering waterways and coming into contact with other products. Wear appropriate protective clothing to clean up spills. Absorb spills with an inert (such as vermiculite, earth, sand or a synthetic absorbent substance) material and place in waste containers. Wash area with a bleach solution (sodium hypochlorite) then absorb any remaining liquid with further inert material. Dispose of waste with an approved waste disposal company.

FIRST AID

If medical advice is needed, have product container or label at hand. If swallowed do not induce vomiting. For advice contact the National Poisons Centre 0800 POISON (0800 764 766) or a doctor immediately. If splashed in eyes, remove contact lenses if present and easy to do, flush eyes with water for at least 15 minutes and see a doctor urgently. If inhaled, move victim to fresh air immediately. If breathing has stopped, begin artificial respiration. Use mouth-to-nose rather than mouth-to-mouth. If skin or hair contact occurs, remove contaminated clothing and flush skin and hair with running water and soap.

NOTICE

Important: You must read the warning and conditions given on this label. If they are not acceptable, or if you are in doubt as to the proper handling of this product (including its transport, storage, use, disposal and after disposal) then return the unopened product to the supplier at once.

Warning:

This product is subject to controls and could be hazardous if handled incorrectly. The user is responsible for ensuring that the handling of this product is in accordance with the law (including the Hazardous Substances and New Organisms Act 1996) and with the directions provided. Key Industries Limited declines all liability whether in contract, tort (including but not limited to negligence), (or otherwise), to the maximum extent permitted by law in relation to the handling of this product in a manner which is contrary to the directions given or to any applicable Acts, Regulations or Guidelines. Further information regarding the applicable Acts, Regulations and Guidelines for the proper handling of this product may be obtained by contacting EPA New Zealand (www.epa.govt.nz). This product is warranted to contain the specified active ingredient within accepted analytical tolerance when packed.

AsureQuality approved Category B & C Food/beverage/dairy factory and storage areas (www.epa.govt.nz) Guideline for the proper handling of this product may be obtained by contacting EPA New Zealand.

Wash area with a bleach solution (sodium hypochlorite) then absorb any remaining liquid with further inert material. Dispose of waste with an approved waste disposal company.
DIRECTIONS FOR USE:
Biff Ant forms a non-repellent residual barrier for a variety of ant species. It is suitable for use in all outdoor areas e.g. paths, driveways, gardens, around dwellings, industrial sites and public areas including roadside curbing and footpaths. Use as a spray on outdoor surfaces only such as lawns, gardens, bark, soil, concrete, asphalt and exterior walls. Biff Ant provides residual control of Argentine Ants for up to 8 weeks, depending on the nature of surface treated.

APPLICATION RATE:
Ensure that a minimum of 5 litres of spray liquid is applied per 100sqm of surface area. On some surfaces a higher spray volume will be required to obtain good coverage. Maximum application rate is 75ml per 100sqm surface area. Always pre-mix Biff Ant prior to adding to sprayer. Sprayer must be cleaned after use. Rinse lines, tank and nozzles thoroughly. Ensure sprayer is residue free before use or dedicated to Biff Ant use only.

Take care not to apply spray drift to windows. If spray has dried, clean spray deposit using a solvent such as turpentine or kerosene. Do not apply on exterior surfaces where food for human consumption is being produced. Not for agricultural use.

Warning:
This product is subject to controls and could be hazardous if handled incorrectly. The user is responsible for ensuring that the handling of this product is in accordance with the law (including the Hazardous Substances and New Organisms Act 1996) and with the directions provided.
